# RAK CERAMICS

## Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs its in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employes approximately 15,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

## Forged in the mountains of Ras Al Khaimah

RAK Ceramics was established in Ras Al Khaimah (U.A.E.) in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

Now under the vision and leadership of Sheikh Khalid Bin Saud Al Qasimi, Chairman of RAK Ceramics; the company has enjoyed rapid growth becoming an industry leader in just 30 years.

## Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We manufacture also seat covers, acrylic bathtubs and showertrays.

## Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

## Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

## We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

### FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

## The world's leading ceramics lifestyle solution provider

RAK Ceramics helps architects and interior designers create icons and build marvels. It provides sustainable materials that inspire ideas, shapes and hues designed to freely express any style. Unique and inspiring products that realistically resemble natural materials, with unlimited choice.

RAK Ceramics gives porcelain perfection and limitless imagination. Its passion and expertise combined with a careful attention to details enables it to provide designers and end users with a wide range of integrated ceramics solutions, allowing their freedom to be creative and plenty of room for imagination.

## A track record of expertise

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world.

*design*

**RAK**  
CERAMICS

## Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

## Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

### **WATER SAVING**

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

### **HYGIENIC AND EASY TO CLEAN**

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

### **SILENT FLUSH**

Rimless technology allows a faster and more silent flush.

### **EFFICIENT DESIGN**

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Water Saving

Easy Cleaning

Silent

Hygienic

No ledges or rim

Rimless

## Updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

## Hidden fixation systems

Our wall hung and back to wall products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

## A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particulates accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.

## Antibacterial Sanitaryware Seat and cover with RAK-ProTeK

RAK-Sanit integrates its offer of antibacterial toilets with sanitised seats that make the toilet even safer and more protected.

The seat and cover are treated with silver ions that kill 99.9% of bacteria and prevents it from spreading.

The range of RAK-Sanit seats and covers fit perfectly with each toilet included in the offer.

## The Freestanding Revolution

Today, freestanding washbasins represent a new and important opportunity capable of combining design and fighting against the spread of bacteria. Going forward, this will be at the centre of a revolution in the approach to hygiene in both public and private places. Elegant in the classic bathroom area and functional if placed in the centre of large work environments or passageways. The freestanding solutions included in the RAK-Sanit program, in addition to being treated with RAK-ProTeK antibacterial enamel, have deeper bowls than the traditional suspended sink, with a consequent reduction of splashes and the potential spread of bacteria.

## RAK-CLOUD

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. All this makes **RAK-Cloud** a concept with a soul, capable of telling a unique and inimitable story. Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins, softly curved bowls or wall solutions for every need.

Linee fluide ispirate da volute geometriche, forme mutevoli come nuvole che si prestano a molteplici interpretazioni e che giocano con la luce restituendo un effetto morbido, avvolgente, ideale per un ambiente bagno raffinato ma al tempo stesso funzionale ed accogliente. Tutto questo fa di **RAK-Cloud** un concept con un'anima, capace di raccontare una storia unica ed inimitabile. Sanitari a parete o sospesi, eleganti vasche e lavabi freestanding, morbide ciotole o soluzioni a parete per ogni tipo di esigenza.

Lignes fluides inspirées par des méandres géométriques, formes mutables comme les nuages qui se prêtent à des interprétations multiples, et qui jouent avec la lumière, en restituant un effet doux et exaltant, idéal pour les salles de bains raffinées, mais à la fois fonctionnelles et accueillantes. Tout cela fait de **RAK-Cloud** un concept doté d'une âme, capable de raconter une histoire unique et inimitable. Objets sanitaires au mur ou suspendus, baignoires élégantes et lavabos freestanding, cuvettes légères ou solutions au mur pour tout

Fließende Linien, inspiriert durch geometrische Wendungen, wechselnde Formen, wie Wolken, die zu zahlreichen Interpretationen verführen und mitreißende Wirkung erzeugen, ideal für raffinierte und doch funktionelle und einladende Bäder. All das macht aus **RAK-Cloud** ein Konzept mit Seele, das fähig ist, eine einzigartige und unnachahmbare Geschichte zu erzählen. Sanitäre Wand- oder Hängeobjekte, elegante Badewannen und freistehende Waschbecken, leichte Badeschalen oder Wandlösungen für jeden Anspruch.

Плавные линии, пронизанные геометрическими завитками и меняющие свои очертания как облака, дают множество форм и игру света, создавая эффект мягкого обволакивания, кульминацией которого является изысканная, но в то же время функциональная и уютная ванная комната. Всё это делает концепцию **RAK-Cloud** живой, обладающей душой, способной рассказать уникальную и неповторимую историю. Приставные или подвесные унитазы, отдельностоящие элегантные ванны, умывальники с мягко изогнутыми краями или настенные решения позволяют удовлетворить потребности каждого.

## Design Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

*Giuseppe Maurizio Scutellà*

## RAK-DES

**RAK-Des** is a new concept bathroom suite that pays tribute to the Bauhaus school by which it is inspired, on the occasion of the centenary of its foundation (1919). **RAK-Des** includes bowls and freestanding washbasins with the essential minimalist lines. The rectangular washbasins of this collection can be installed suspended, individually, or combined with the RAK-Joy vanities.

**RAK-Des** è la nuova collezione RAK Ceramics che a partire dal nome e dalle linee rende omaggio al Bauhaus in occasione del centenario della sua fondazione (1919). **RAK-Des** include, oltre ai sanitari, ciotola e lavabo freestanding dalle linee molto essenziali, minimaliste, come lo stile al quale si ispira. I lavabi rettangolari di questa collezione possono essere installati sospesi, singolarmente, oppure abbinati ai mobili bagno RAK-Joy.

**RAK-Des** est la nouvelle collection de RAK Ceramics qui, par le nom et les lignes, rend hommage à Bauhaus, à l'occasion du centenaire de sa fondation (1919). **RAK-Des** comprend, à part les objets sanitaires, des vasques et lavabos sur pied, aux lignes très essentielles et minimalistes, comme le style auquel il s'inspire. Les lavabos rectangulaires de cette collection peuvent être installés suspendus, seuls, ou bien combinés avec des meubles de salle de bains RAK-Joy.

**RAK-Des** ist die neue Kollektion von RAK Ceramics, die durch den Namen und die Linien, zu einer Hommage an Bauhaus wird, zum Anlaß des hundertjährigen Geburtstags seiner Gründung (1919). **RAK-Des** umfasst, zusätzlich zu den Sanitärgegenständen, freistehende Waschschaalen und Waschbecken mit essentiellen und minimalistischen Linien, wie der Stil, der sie inspiriert. Die rechteckigen Waschbecken dieser Kollektion können aufgehängt, alleine oder kombiniert mit den Badmöbeln von RAK-Joy, installiert werden.

**RAK-Des** - это новая концепция ванной комнаты от RAK Ceramics отдающая дань школе Баухаус, выпущенная специально к столетнему юбилею основания школы (1919). **RAK-Des** включает в себя раковины- чаши и отдельно стоящие раковины с неизменными минималистическими линиями. Прямоугольные раковины этой коллекции могут быть использованы как навесные варианты, так и в сочетании с мебелью для ванной комнаты, RAK-Joy.

## Touchless flushing

Enjoy the same hands free, germ free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

### DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

### Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

Override lateral push button in case of failed battery.

## RAK-ILLUSION

Amazement is a great sensation of wonder, brought by something unexpected. This is exactly the base of **RAK-Illusion** design. Lines so light it creates an impression of suspension, its surprising details and unique character can make the bathroom a magical and unexpected place.

Lo stupore: una sensazione di grande meraviglia, provocata da qualcosa di inatteso. E' esattamente cio' che sta alla base del design di **RAK-Illusion**. Linee tanto leggere da sembrare sospese, dettagli sorprendenti e un carattere unico in grado di rendere la stanza da bagno un luogo magico ed inaspettato.

La stupeur : une sensation de grande merveille, provoquée par quelque chose d' inattendu. C' est exactement ce qui se trouve à la base du design **RAK-Illusion**. Lignes si légères qu' elles semblent suspendues, détails surprenants et un caractère unique, capable de faire de la salle de bains un lieu magique et inattendu.

Sprachlosigkeit : ein Gefühl der großen Verwunderung, die von etwas Unerwartetem ausgelöst wird. Genau darauf basiert das Design von **RAK-Illusion**. Linien, die so leicht sind, dass sie zu schweben scheinen, überraschende Details und ein einzigartiger Charakter, der das Badezimmer zu einem magischen und unerwarteten Ort macht.

Изумление - это великое чувство удивления, вызванное чем-то неожиданным. Это и есть основа дизайна коллекции **RAK-Illusion**. Линии настолько светлые, что создается впечатление подвешенности, ее удивительные детали и неповторимый характер могут превратить ванную комнату в волшебное и неожиданное место.

## RAK-SENSATION

An eclectic collection, combining aesthetic functionality and innovation. Rimless technology, hidden fixations and symmetrical shapes underlining the soft turning of the unique and distinctive form.

Stylish and captivating **RAK-Sensation** defines your bathroom with natural harmony.

Un progetto eclettico e ampio che unisce estetica, funzionalità e innovazione. Tecnologia Rimless, sistema di fissaggio nascosto e forme equilibrate con un particolare accento sulle morbide curve dalla linea unica e distintiva.

Elegante, intrigante, **RAK-Sensation** dona carattere e naturale armonia al vostro bagno.

Un projet éclectique et ample qui unit l'esthétique, la fonctionnalité et l'innovation. Technologie Rimless, système de fixation cachée et forms équilibrées, avec un accent particulier mis sur les courbes douces de la ligne unique et distinctive.

Élégante et intrigante, **RAK-Sensation** confère du caractère et une harmonie naturelle à votre salle de bains.

Ein eklektisches und umfassendes Projekt, das Ästhetik, Funktionalität und Innovation vereint. Technologie Rimless, Verdecktes Befestigungssystem und ausgeglichene Formen, mit einem besonderen Akzent auf den weichen Kurven der einzigartigen und kennzeichnenden Linie.

Elegant und fesselnd, verleiht **RAK-Sensation** Ihrem Bad Charakter und eine natürliche Harmonie.

Эта коллекция сочетает в себе эстетичность, функциональность и инновационность. Безободковая технология Rimless, скрытые крепления и симметричные очертания подчеркивают мягкие переходы уникальной и самобытной формы.

Стиль и завораживающая красота коллекции **RAK-Sensation** придаст вашей ванной комнате ощущение естественной гармонии.

## Touchless flushing

Enjoy the same hands free, germ free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

### DUAL FLUSHING:

Still hand above the indicated spot for *full flush*.

Waving hand above the indicated spot for *half flush*.

### Technical Information:

Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.

Battery life: around 2 years for family use, and 1 year for commercial using.

Override lateral push button in case of failed battery.

## RAK-WASHINGTON

**RAK-Washington** Perfect, absolute shapes reveal the origins of the concept of elegance and give a tangible meaning to the word "beauty". Pure, intense, calming, timeless, beauty transforms spaces and remains forever engraved in the memory of those who for a moment stop to admire it, in silence.

**RAK-Washington** Forme perfette, assolute, svelano le origini del concetto di eleganza e danno un significato tangibile alla parola "bellezza". Pura, intensa, imperturbabile, la bellezza supera il tempo e trasforma lo spazio e resta per sempre scolpita nella memoria di chi per un attimo si ferma ad ammirarla, in silenzio.

**RAK-Washington** Formes parfaites et absolues qui révèlent les origines du concept de l'élégance et donnent une signification tangible à la parole "beauté". Pure, intensive, imperturbable, la beauté surmonte le temps, transforme l'espace et reste pour toujours gravée dans la mémoire de celui qui, pour un moment, s'arrête à l'admirer silencieusement.

**RAK-Washington** Perfekte und absolute Formen, die die Ursprünge des Eleganzkonzepts enthüllen und dem Wort "Schönheit" eine fassbare Bedeutung verleihen. Pur, intensiv und unerschütterlich, überwindet Schönheit die Zeit, verwandelt den Raum und bleibt für immer im Gedächtnis derer, die für einen Augenblick innehalten, um sie im Stillen zu bewundern.

Совершенные, абсолютные формы раскрывают истоки концепции элегантности и придают осязаемый смысл слову "красота". Чистая, сильная, успокаивающая, вневременная, красивая коллекция RAK-Washington преобразует пространство и навсегда запечатлится в памяти тех, кто на мгновение остановился, чтобы полюбоваться на неё... в тишине.

## RAK-CAROLINE

**RAK-Caroline** bathroom suite is classy and enticing adding a touch of serenity to the bathroom. This spacious bathroom suite is a European design and its broad wash basin offers ample space for toiletries. The water closet cistern is pre-fitted with a flush mechanism.

Il completo bagno **RAK-Caroline** è di classe ed invitante, e aggiunge un tocco di serenità al bagno. Questo spazioso completo bagno ha un design europeo e il suo abbondante lavabo offre ampio spazio agli accessori da toilette. La cassetta del water ha la predisposizione per il sistema di scarico.

Les salles de bains **RAK-caroline** sont élégantes et attrayantes, à quoi s'ajoute son côté serein. Cette salle de bains spacieuse est un style européen et son grand lavabo offre assez d'espace pour les produits de toilette.

Die **RAK-Caroline** Badezimmerausstattung ist elegant und verlockend, und fügt dem Bad einen Hauch von Heiterkeit hinzu. Diese geräumige Badezimmerausstattung hat ein europäisches Design und der breite Waschtisch bietet ausreichend Platz für Toilettenartikel.

Элегантный стиль комплекта для ванной комнаты **RAK-Caroline** придаст вашей ванной комнате ощущение естественной гармонии. Просторная ванная европейского дизайна с широкой раковиной, где достаточно места для туалетных принадлежностей. В смывной бачок заранее установлен механизм смыва.

## RAK-KARLA

**RAK-Karla's** short projections and graceful form is an impressive combination offering exclusivity to the bath area without compromising on durability. Its overall appearance transforms even small bathrooms into a comfortable place to unwind.

Le piccole sporgenze e le graziose forme di **RAK-Karla** costituiscono una notevole combinazione che conferisce esclusività all'area bagno senza comprometterne la durabilità. Il suo aspetto generale trasforma anche un piccolo bagno in un luogo confortevole in cui rilassarsi.

Les courtes projections et la forme gracieuse de la salle de bains **RAK-Karla** est une impressionnante association qui offre une exclusivité de la zone de bains sans compromettre sa longévité. Son apparence générale transforme aussi les petites salles de bains en espace fonctionnel pour décompresser.

Die kurzen Projektionen und die Anmutige Formgebung von **RAK-Karla** ist eine beeindruckende Kombination an Exklusivität im Badbereich - ohne Kompromisse in der Haltbarkeit. Der Gesamteindruck verwandelt auch kleine Badezimmer in einen komfortablen Ort zur Entspannung.

Небольшие размеры и изящные формы комплекта сантехники **RAK-Karla** — впечатляющая комбинация, которая позволит сделать вашу ванную комнату уникальной. При этом небольшие размеры вовсе не значат, что сантехника не будет служить долго! Её дизайн способен превратить даже маленькую ванную комнату в комфортные пространство, располагающее к отдыху. Комплект RAK-Karla доступен с пристенным и подвесным унитазами, а также с унитазом-компакт в семи различных расцветках.

## RAK-PRECIOUS

With richer finishes, **RAK-Precious** provides a luxurious alternative to the functional ceramic white. Combining collections for floors, walls, bathroom furnishings and accessories, RAK-Precious offers complete solutions, enabling you to create your own personal idea of harmony.

Grazie alla ricca scelta di finiture materiche, alternative alla classica ceramica bianca, **RAK-Precious** offre la possibilità di ottenere un effetto total look, combinando i lavabi a pavimenti, rivestimenti, mobili bagno ed accessori, in linea con la tua idea personale di armonia e continuità estetica.

Grâce au riche choix de finitures matérielles, comme alternatives à la céramique blanche classique, **RAK-Precious** offre la possibilité d'obtenir un effet de look complet, en combinant les lavabos avec les sols, les revêtements, les meubles de salle de bains et les accessoires, conformément à votre idée personnelle de l'harmonie et de la continuité esthétique.

Dank der großen Auswahl an Materialoberflächen, als Alternativen zum klassischen Keramik, bietet **RAK-Precious** die Möglichkeit einer ganzheitlichen Wirkung, indem die Waschbecken mit den Böden, Wandverkleidungen, Badezimmermöbeln und Accessoires, in Einklang mit Ihrer persönlichen Vorstellung von Harmonie und ästhetischer Kontinuität, kombiniert werden.

Имея в распоряжении более качественные отделочные материалы, **RAK-Precious** предоставляет эксклюзивные альтернативные решения вместо функциональной белой керамики. Сочетая коллекции напольной и настенной плитки, мебели для ванных комнат, аксессуары RAK-Precious предлагает готовые решения, позволяющие гармонично воплощать ваши креативные идеи.

## RAK-PETIT

**RAK-Petit** is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces: with minimal shapes and small dimensions, **RAK-Petit** is perfect for small but special bathrooms and for furnishing elegant public spaces. freestanding washbasins for representative or public bathrooms.

**RAK-Petit** è il secondo capitolo della fortunata collaborazione con Maurizio Scutellà. Una collezione trasversale di lavamani dalle piccole dimensioni pensata per le esigenze progettuali di architetti ed interior designers che affrontano il tema degli spazi ridotti: forme volutamente minimaliste, dimensioni ridotte per bagni piccoli ma speciali e per arredare eleganti spazi pubblici.

**RAK-Petit** est le second chapitre de la coopération fortunée avec Maurizio Scutella. Une collection transversale de lave-mains de petites dimensions, pour les exigences de projets d'architectes et de designers d'intérieur qui affrontent le thème d'espaces réduits: formes délibérément minimalistes, dimensions réduites pour les salles de bains petites mais spéciales ainsi que pour aménager des espaces publics élégants.

**RAK-Petit** ist das zweite Kapitel der gelungenen Zusammenarbeit mit Maurizio Scutella. Eine transversale Kollektion von kleinen Waschbecken für die Bedürfnisse von Architektur- und Innendesignprojekten, die sich mit der Thematik kleiner Räume befassen: gewollt minimalistische Formen, kleine Größen für kleine aber spezielle Bäder, sowie für die Einrichtung eleganter öffentlicher Räume.

**RAK-Petit** - вторая часть успешного сотрудничества с Маурисио Скутеллой. Широкая линейка коллекции небольших умывальников предназначена для архитекторов и дизайнеров интерьера, которые занимаются темой небольших пространств: с минимальными формами и небольшими размерами. RAK-Petit идеально подходит как для небольших гостевых ванных комнат, так и для создания элегантных общественных пространств.

## Design Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

## RAK-VARIANT

Round, oval, square... what's the shape of your freedom? Feel free to design, free to explore new solutions for your bathroom project, free to imagine. Thanks to an innovative and modular system, **RAK-Variant** opens up limitless possibilities for customized solutions, featuring countertop, drop-in and under counter washbasins. Different shapes and different sizes with or without tap bank. Made from high-quality ceramic in 5mm thickness.

Rotondo, ovale, quadrato... qual e' la forma della tua liberta? Libero di progettare, di esplorare nuove soluzioni per il tuo progetto bagno, libero di immaginare. Grazie ad un innovativo sistema modulare, **RAK-Variant** offre infinite possibilita' di soluzioni personalizzate, con lavabi da appoggio, incasso o semi-incasso. Disponibile in un'ampia gamma di forme e dimensioni, con o senza piano per la rubinetteria. Realizzato in ceramica di alta qualita' con bordi sottili da 5mm,

Ronde, ovale, carrée...quelle est la forme de votre liberté? Libre de projeter, d'explorer de nouvelles solutions pour votre projet de salle de bains, libre d'imaginer. Grâce à un système modulaire innovateur, **RAK Variant** offre infiniment de possibilités de solutions personnalisées, avec des vasques à poser, des lavabos encastrés ou mi-encastrés. Disponible en une large gamme de formes et de dimensions, avec ou sans plan de robinetterie. Réalisé en céramique de haute qualité, avec des rebords fins de 5 mm,

Rund, oval, quadratisch...Welche ist die Form Ihrer Freiheit? Frei zu planen, neue Lösungen für Ihr Badprojekt zu erforschen, frei auszudenken. Dank eines innovativen Modulsystems, bietet **RAK Variant** unendlich viele Möglichkeiten an personalisierten Lösungen, mit Aufsatzwaschbecken, Einbauwaschbecken oder Halb-Einbauwaschbecken. Verfügbar in einer großen Auswahl an Formen und Größen, mit oder ohne Ablagefläche. Aus hoch qualitativer Keramik, mit feinen 5 mm dicken Rändern, garantiert

Круг, овал, квадрат... какова форма вашей свободы? Создавайте свой дизайн, ищите новые решения для ванной комнаты, дайте волю воображению! Благодаря инновационной модульной системе коллекция **RAK Variant** открывает безграничные возможности для индивидуальных решений. В коллекцию входят столешницы и раковины, накладные и встраиваемые под столешницу. Мы предлагаем разнообразие форм и размеров, варианты с отверстием под смеситель или без него. Коллекция RAK-Variant производится из высококачественной керамики толщиной 5 мм

DANIEL DEBIASI AND FEDERICO SANDRI  
*Designer*

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

## RAK-FEELING WASH BASINS

RAK-Feeling counter top wash basins will enhance any modern bathroom interior design. Available in 5 different ceramic glazes, they perfectly match with the colour range of our RAK-Feeling RAKSOLID shower trays.

To complete the collection, all counter top bowls can be colour coordinated with a ceramic click-clack pop up waste and placed on your favourite RAK-Joy bathroom vanity, integrated with a tile countertop surface selected from the RAK-Precious range by RAK Ceramics.

I nuovi lavabi da appoggio RAK-Feeling si adattano ad ogni progetto di bagno in stile moderno. Disponibili in 5 diversi colori, si combinano perfettamente alla gamma colori dei piatti doccia RAK-Feeling in RAKSOLID.

Tutti i lavabi possono essere completati dallo scarico con tappo click clack coordinato e possono essere abbinati al vostro mobile bagno preferito della linea RAK-Joy, integrato con piano d'appoggio in gres porcellanato RAK-Precious.

nouveaux lavabos à poser RAK-Feeling s'adaptent à tout projet de bain en style moderne. Disponibles en 5 couleurs diverses, ils se combinent parfaitement avec la gamme de couleurs des receveurs de douche RAK-Feeling en RAKSOLID.

Tous les lavabos peuvent être complétés par une soupape d'évacuation clic clac conforme, et combinés avec votre meuble de bain préféré de la ligne RAK-Joy, avec plan d'appui en grès porcelaine RAK-Precious.

Die neuen Auf Tischwaschbecken RAK-Feeling passen sich jedem Badprojekt in modernem Stil an. Sie sind in 5 verschiedenen Farben verfügbar und lassen sich bestens mit der Farbpalette der Duschbecken von RAK-Feeling aus RAKSOLID kombinieren.

Alle Waschbecken lassen sich durch ein entsprechendes Ablaufventil Klick Klack vervollständigen und können an Ihr Lieblingsbadezimmermöbelstück der Linie RAK-Joy, mit Auflagefläche aus Feinsteinzeug RAK-Precious, angepasst werden.

Умывальники RAK-Feeling, монтирующиеся на столешницу, подчеркнут любой современный дизайн интерьера. Умывальники представлены в 5 оттенках керамической глазури, идеально сочетающейся с цветовой гаммой душевых поддонов RAK-Feeling RAKSolid. В довершение коллекции, цвет всех раковин, монтирующихся на столешницу, можно подобрать под оттенок керамических сливных заглушек рычажного и ручного типов, а сами раковины смонтировать сверху на вашем любимом шкафчике под умывальник из коллекции RAK-Joy с выложенной плиткой поверхностью столешницы, подобранной из ассортимента RAK-Precious компании RAK Ceramics.

## RAK-FEELING WASH BASINS

### SLIM EDGES, HIGH RESISTANCE

BORDI SOTTILI, RESISTENZA ELEVATA | BORDS FINS, RÉSISTANCE ÉLEVÉE | FEINE RÄNDER, HOHE WIDERSTANDSKRAFT | ТОНКИЕ КРАЯ, ВЫСОКАЯ УСТОЙЧИВОСТЬ

RAK-Feeling washbasins are characterized by simple lines and by the new 5mm slim edges that give the whole range a minimal look and at the same time a very high resistance. A perfect synthesis of design and functionality.

lavabi RAK-Feeling si distinguono per le linee semplici ed i nuovissimi bordi sottili da 5mm che conferiscono all'intera gamma un look minimal e contemporaneamente un'altissima resistenza. Una sintesi perfetta di design e funzionalità.

Les lavabos RAK-Feeling se distinguent par des lignes simples et des bords fins les plus nouveaux de 5 mm, qui confèrent à l'ensemble de la gamme un look minimal et, à la fois, une résistance suprême. Une synthèse parfaite de design et de fonctionnalité.

Die Waschbecken RAK-Feeling zeichnen sich durch einfache Linien und die neuesten feinsten 5mm hohen Ränder aus, die der gesamten Auswahl einen minimalistischen Look und gleichzeitig eine hohe Widerstandskraft verleihen. Eine perfekte Synthese aus Design und Funktionalität.

Раковины из коллекции RAK-Feeling отличаются простыми линиями и оригинальными тонкими краями толщиной 5 мм, которые придают всей линейке минималистический вид и в то же время высокую устойчивость. Совершенный синтез дизайна и функциональности.

## RAK-SILVER

Just a few small changes are enough to turn your bathroom into a safe environment, even if you are in your twilight years or have limited movement. The **RAK-Silver** collection has been created by RAK Ceramics to provide safety, functionality and comfort at any age, with essential features to ensure total independence and autonomy in your bathroom, without sacrificing on style.

Bastano pochi specifici accorgimenti per trasformare il bagno in un ambiente sicuro anche per persone non più giovani o con limitazioni di movimento. **Rak-Silver** è uno specifico programma creato da Rak Ceramics per poter garantire sicurezza, funzionalità e comfort ad ogni età, caratteristiche indispensabili per assicurare totale indipendenza ed autonomia nella zona bagno, senza rinunciare al proprio stile.

Il suffit peu d'artifices spécifiques, pour transformer la salle de bains en un lieu sûr, aussi pour des personnes plus âgées ou aux mouvements limités. **Rak-Silver** est un programme spécifique, créé par Rak-Ceramics, afin de garantir la sécurité, la fonctionnalité et le confort pour tout âge - des caractéristiques indispensables pour assurer une indépendance et une autonomie totales dans la zone de la salle de bains, sans renoncer au propre style.

Es genügen wenige spezifische Kunstgriffe, um das Badezimmer in einen sicheren Raum zu verwandeln, selbst für ältere oder bewegungseingeschränkte Personen. **Rak-Silver** ist ein spezifisches Programm, das von Rak-Ceramics entwickelt worden ist, um Sicherheit, Funktionalität und Komfort in jedem Alter zu garantieren - unerlässliche Eigenschaften, um eine völlige Unabhängigkeit und Autonomie im Badbereich sicherzustellen, ohne auf den eigenen Stil verzichten zu müssen.

Даже если вы находитесь в преклонном возрасте или ваши возможности перемещения ограничены, достаточно нескольких небольших изменений, чтобы сделать вашу ванную комнату безопасной. Коллекция **Rak-Silver** была создана RAK Ceramics, чтобы обеспечить безопасность, функциональность и комфорт в любом возрасте. Коллекция обладает необходимыми функциями для гарантии полной независимости и самостоятельности в вашей ванной комнате, не принося в жертву дизайн.

## Waterless urinal

RAK-Venice is a urinal perfectly functioning with no use of water: we call it Waterless.

RAK Ceramic's Waterless system is unlike any other dry valve in the market, helping to: eliminate restroom odors, provide the most robust flow rate, make maintenance and clean up easier, and provide a more hygienic solution in the restroom. The maintenance of our Waterless system is easy and fast, the green visual indicator is made of biodegradable ingredients that inform when it's time to change out your cartridge (approx. 7500 uses).

RAK-Venice e' un orinatoio perfettamente igienico senza l'uso dell'acqua. Per questo lo chiamiamo **Waterless**. Il Sistema Rak Ceramics Waterless non e' come tutte le altre valvole a secco disponibili sul mercato e permette di: eliminare gli odori, fornire il piu' alto volume di scarico, facilitare la pulizia e manutenzione e in generale fornire una soluzione piu' igienica al bagno pubblico. La manutenzione e' semplice e veloce, l'indicatore verde in materiale biodegradabile segnala quando e' necessario sostituire la ricarica (circa 7500 utilizzi).

RAK-Venice est un urinoir parfaitement hygiénique, sans eau. Pour cette raison, nous l'appelons **Waterless**. Le système Rak Ceramics Waterless n'est pas comme toutes les autres vanes à sec disponibles sur le marché et permet: d'éliminer les odeurs, de fournir le plus haut volume de chasse d'eau, de faciliter le nettoyage et l'entretien et, en général, de fournir une solution plus hygiénique d'une salle de bains publique. L'entretien est simple et rapide, l'indicateur vert en matériel biodégradable signale quand il est nécessaire de remplacer le recharge. (environ 7500 utilisations).

RAK-Venice ist ein perfekt hygienisches, wasserloses Urinal. Aus diesem Grund nennen wir es **Waterless**. Das System Rak Ceramics Waterless ist nicht wie alle anderen, auf dem Markt erhältlichen Ventilentrüftungen und ermöglicht: Gerüche zu eliminieren, die größtmögliche Spülung zu leisten, die Reinigung und Instandhaltung zu erleichtern, und, im Allgemeinen, eine Lösung zu liefern, die hygienischer ist als ein öffentliches Bad. Die Instandhaltung ist einfach und schnell, die grüne Anzeige aus bioabbaubarem Material signalisiert wenn es notwendig ist, wieder aufzufüllen. (ungefähr 7500 mal verwendbar).

Писсуар RAK-Venice прекрасно работает без использования воды: мы называем такие устройства **Waterless**. RAK Ceramics Waterless отличается от любых других систем с сухим гидрозатвором на рынке. Это более гигиеничное решение для туалета, которое позволяет устранять запахи в туалете, а также обеспечивает максимальную скорость стока, качественное техническое обслуживание и очистку. Наша система Waterless проста в обслуживании, зеленый индикатор выполнен из биоразлагаемых компонентов. С его помощью вы будете знать, когда уже пора менять картридж (примерно после 7500 использований).

RAK-Ecofix range includes urinal electronic sensor system (Page 504). The sensor automatically flushes the individual urinal after use, ensuring the highest level of hygiene from the minimum volume of water.

La gamma RAK-Ecofix comprende i sensori di risciacquo elettronici per orinatoio (Pagina 504). I sensori consentono il risciacquo automatico dell'orinatoio dopo l'uso, garantendo il massimo livello di igiene ed il minimo consumo d'acqua.

La gamme de RAK-Ecofix comprend également un système de capteurs électronique pour les pisseoirs (Page 504). Le capteur rince le pisseoir automatiquement, après l'usage, et garantit ainsi en même temps une hygiène maximale et une consommation d'eau minimale.

Die Palette von RAK-Ecofix umfasst ebenfalls ein elektronisches Sensorsystem für Pisseoirs (Seite 504). Der Sensor spült das Pisseoir automatisch nach dem Gebrauch, und gewährleistet somit ein Maximum an Hygiene bei minimalem Wasserverbrauch.

Серия RAK-Ecofix включает в себя электронные датчики писсуаров (504). Датчик позволяет автоматически осуществлять смыв в писсуаре после каждого использования, обеспечивая максимальный уровень гигиены при минимальном расходе воды.

## We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

### FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

Shelving is not only practical: it can also be fully part of your bathroom design. Contemporary, sophisticated and easy to be installed, RAK-Joy shelving units help you style your bathroom, with a creative and multifunctional furnishing solutions to meet your needs and express your imagination. The unit is equipped with an interlocking system so that you can hook the accessories without screwing them into the structure. The bifacial bookcase is a creative partition that works as furnishing accessory and dividing wall. Find a new solutions to separate your rooms, store your objects and complete your bathroom with style.

Le mensole non sono solo pratiche: possono anche essere parte integrante del design del tuo bagno. Contemporanei, sofisticati e facili da installare, gli scaffali RAK-Joy ti aiutano a dare stile al tuo bagno, con soluzioni d'arredo creative e multifunzionali per soddisfare le tue esigenze ed esprimere la tua fantasia. Le unità sono dotate di un sistema ad incastro per poter agganciare gli accessori senza avvitari alla struttura.

La libreria bifacciale è un divisorio creativo che funge da complemento d'arredo e parete divisoria. Trova nuove soluzioni per separare i tuoi spazi, riporre i tuoi oggetti e completare il tuo bagno con stile.

Les surfaces de travail ne sont pas seulement pratiques, mais peuvent également devenir une partie intégrante de votre salle de bains. Contemporaines, sophistiquées et faciles à installer, les étagères de RAK-Joy vous aident à conférer du style à votre salle de bains, par des solutions d'aménagement créatives et multifonctionnelles, qui satisfont vos exigences et expriment votre fantaisie. Les unités sont dotées d'un système de fixation, pour y joindre les accessoires, sans avoir besoin de les visser à la structure. La bibliothèque bifaciale est un élément de séparation créatif qui sert à la fois de meuble et de mur de séparation. Trouvez de nouvelles solutions, pour séparer vos espaces, déposer vos objets et compléter avec style votre salle de bains.

Ablagen sind nicht nur praktisch, sie können auch zu einem festen Bestandteil Ihres Badezimmerdesigns werden. Zeitgenössisch, anspruchsvoll und einfach zu installieren - die Regale von RAK-Joy helfen Ihnen dabei, Ihrem Badezimmer Stil zu verleihen, durch kreative und multifunktionale Einrichtungslösungen, die Ihre Wünsche erfüllen und Ihre Fantasie zum Ausdruck bringen. Die Einheiten sind mit einem Einspannsystem ausgestattet, um Accessoires anzuhängen, ohne sie an die Struktur anzuschrauben. Das beidseitige Bücherregal ist ein kreatives Trennelement, das gleichzeitig als Möbelstück und als Trennwand fungiert. Finden Sie neue Lösungen, um Ihre Räume zu trennen, Ihre Gegenstände abzulagern und Ihr Badezimmer stilvoll zu ergänzen.

Полки выполняют не только практическую функцию – они также могут в полной мере стать частью дизайна вашей ванной комнаты. Современные, тщательно продуманные и простые в установке полочные модули RAK-Joy помогут вам создать дизайн ванной комнаты благодаря креативным и многофункциональным решениям для мебелировки, которые отвечают вашим потребностям и дают возможность воплотить в жизнь вашу фантазию. Данный модуль оснащен системой сцепления, позволяющей подвешивать аксессуары без необходимости крепить их винтами к конструкции. Двусторонний шкаф представляет собой креативную перегородку и выполняет функцию мебельного аксессуара, а также служит для разделения стен. Находите новые решения для разделения ваших комнат, хранения вещей и создания стильного образа вашей ванной комнаты.

## RAK-FEELING

**RAK-Feeling** is made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins.

The elegant matte finish with stone effect gives a distinctive feel to the shower area, as well as a pleasant to the touch and more anti-slip safety.

I piatti doccia **RAK-Feeling** sono realizzati in RAKSOLID, un materiale resistente composto da una miscela di minerali naturali e resine.

L'elegante finitura opaca ad effetto pietra dona distintività alla zona doccia, oltre ad una piacevole sensazione al tatto ed una maggiore sicurezza antiscivolo.

Les bacs de douche **RAK-Feeling** sont réalisés en RAKSOLID, un matériel résistant qui se compose d'un mélange de minéraux naturels et de résines.

L'élégante finition opaque à effet pierre confère à votre zone-douche un caractère distingué, auquel se joignent une sensation bien agréable à la touche ainsi qu'une majeure sûreté antiglissante.

Die Duschbecken **RAK-Feeling** werden aus RAKSOLID hergestellt, einem resistenten Material, das aus einem Gemisch aus Naturmineralstoffen und Harzen besteht.

Die elegante mattierte Oberfläche mit Steineffekt verleiht Ihrer Duschzone etwas Erhabenes, sowie ein angenehmes Tastgefühl und eine hohe Rutschfestigkeit.

Коллекция поддонов **RAK-Feeling** выполнена из износостойкого материала RAKSOLID, в котором сочетаются натуральные материалы и смолы.

Эlegantная матовая отделка с эффектом натурального камня создаёт особую атмосферу в душевой зоне, приятно на ощупь и препятствует скольжению.

## VERSATILE INSTALLATION

RAK-Feeling shower trays can be installed flush to floor, semi-recessed or directly onto the floor. RAK-Feeling products are ideal for both new buildings and renovations, thanks to the minimum dimensions of 5.8 cm required under the shower tray for the waste.

I piatti doccia RAK-Feeling possono essere installati a filo pavimento, in appoggio sul pavimento piastrellato o a semi-incasso. I prodotti RAK-Feeling sono ideali sia per nuove costruzioni sia per ristrutturazioni, grazie al minimo ingombro di 5,8 centimetri richiesto nel massetto per il nuovo scarico.

Les bacs de douche RAK-Feeling peuvent être installés à plain-pied, plantés sur le sol carrelé ou mi-intégrés. Les produits RAK-Feeling sont idéaux aussi bien pour les nouvelles constructions que pour les rénovations, grâce à un minimum de surface nécessaire de 5,8 centimètres, dans la chape de ciment, pour le nouvel écoulement.

Die Duschbecken RAK-Feeling können bodengleich, auf dem gefliesten Boden oder teils eingebaut installiert werden. Die Produkte RAK-Feeling eignen sich hervorragend sowohl für neue Konstruktionen als auch für Renovierungen, dank des minimalen Platzbedarfs von 5,8 cm, der im Estrich für den neuen Abfluss benötigt wird.

Душевые поддоны RAK-Feeling можно устанавливать заподлицо с полом, полуутопленными в пол или на полу. Поддоны RAK-Feeling идеально подходят как для установки в новых зданиях, так и для замены старых моделей: минимальное расстояние, необходимое под поддоном для слива, составляет всего 5,8 см.

ВОССТАНОВЛЕНИЕ

RAK-Feeling is only 3cm thin and its surface inhibits the growth of bacteria and fungi to ensure greater safety and hygiene. All the shower trays feature excellent resistance to chemical products. This is confirmed by the strictest chemical resistance tests required by the EN 14527 standard. They are not affected by exposure to light. This is confirmed by xenon arc lamp tests, which simulate sunlight on shower trays and verify the effects of ageing (EN ISO 4892 standard). Our RAKSOLID material meets the highest safety standards, being classified in DIN 51097 Class C (the highest achievable level of slip resistance). It prevents slipping on surfaces with an inclination angle of more than 24°. In the event of chips and scratches, shower trays can be restored to their original condition using a special repair kit.

RAK -Feeling e' ultra sottile ed ha proprieta' batteriostatiche e fungistiche che lo rendono ancora piu' sicuro e igienico. Ogni piatto doccia e' sottoposto alle prove di resistenza agli agenti chimici previste dalla normativa EN 14527 ed alle variazioni di luce che riproducono l'effetto di invecchiamento in condizioni di reale utilizzo (normativa EN ISO 4892). RAKSOLID rientra inoltre nella classe piu' alta della normativa DIN 51097 (Classe C), prevenendo lo scivolamento su superfici con inclinazione superiore a 24°. In caso di graffi e scheggiature il piatto doccia puo' essere riparato tramite un apposito kit di riparazione.

RAK-Feeling est extrêmement fin, et ses propriétés antibactériennes et anti-cryptogamiques le rendent encore plus sûr et plus hygiénique. Chaque bac de douche est soumis aux épreuves de résistance aux agents chimiques, prévues par le règlement EN 14527, et aux variations de lumière qui produisent l'effet de vieillissement à des conditions d'usage réelles (règlement EN ISO 4892). En outre, RAKSOLID s'inscrit dans la classe la plus élevée du règlement DIN 51097 (Classe C), qui prévient le glissement sur les surfaces d'une inclinaison supérieure à 24°. En cas d'égratignures et de détachements, le bac de douche peut être réparé par un kit de réparation approprié.

RAK-Feeling ist ultradünn und seine antibakteriellen sowie antipilzbildenden Eigenschaften machen es noch sicherer und hygienischer. Jedes Duschbecken wird Resistenzproben gegen chemische Schadstoffe unterstellt, die von der Norm EN 14527 vorgesehen sind, sowie Lichtwechselwirkungen, die Alterungseffekte unter Realbedingungen simulieren (Norm EN ISO 4892). RAKSOLID gehört in die höchste Klasse der Norm DIN 51097 (Klasse C), die das Ausrutschen auf Oberflächen mit einer Neigung von über 24° vorbeugt. Im Falle von Kratzern und Absplitterungen kann das Duschbecken mittels eines entsprechenden Kits repariert werden.

Толщина RAK-Feeling - всего 3 см, а его поверхность исключает размножение бактерий и грибов и обеспечивает большую степень безопасности и гигиеничности. Все душевые поддоны характеризуются стойкостью к влиянию химических продуктов. Это подтверждено строжайшими испытаниями химической стойкости согласно стандарту EN 14527. На них не влияет воздействие света. Это подтверждено испытаниями дуговой ксеноновой лампой, имитирующими падение солнечного света на душевые поддоны и проверяющими эффект старения (стандарт EN ISO 4892). Наш материал RAKSOLID соответствует высочайшим стандартам безопасности и классифицируется по стандарту DIN 51097 класс C (наивысший достижимый уровень защиты от скольжения). Он предотвращает скольжение на поверхностях с углом наклона более 24°. В случае сколов и царапин можно восстанавливать первоначальное состояние душевых поддонов, используя специальный ремонтный набор.

**FLUSHING SYSTEMS**  
SISTEMI DI RISCIAQUO  
MÉCANISMES WC  
SPÜLSYSTEME  
СИСТЕМЫ СМЫВА

## Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern. Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

### DUAL FLUSHING:

 Or  Large button for full flush.

 Small button for half flush.

## RAK-ECOFIX

**RAK-Ecofix** Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible built-in flushing systems combine functionality and aesthetics, saving space in every bathroom. The new and elegant push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption.

I sistemi di risciacquo **RAK-Ecofix** by RAK Ceramics sono la soluzione ideale per tutte le tipologie di impianto idrosanitario. Le invisibili cassette di risciacquo da incasso uniscono funzionalità ed estetica, con un notevole risparmio di spazio in ogni tipo di bagno.

Le nuove ed eleganti placche di comando si integrano perfettamente con qualunque stile e design ed i sistemi dual flush riducono il consumo di acqua.

Les systèmes de chasse d'eau **RAK-Ecofix** de RAK Ceramics offrent la solution idéale pour tout type d'objets hydro-sanitaires. Les invisibles réservoirs de chasse d'eau encastrés unissent la fonctionnalité et l'esthétique avec une économie d'espace considérable dans tout type de salle de bains.

Les plaquespoussoirs s'intègrent à merveille dans tout style et tout design, et les systèmes de chasse d'eau de cabinet duals réduisent la consommation d'eau.

Die Spülsysteme **RAK-Ecofix** von RAK Ceramics sind die ideale Lösung für alle Arten hydrosanitärer Anlagen. Die unsichtbaren eingebauten Spülkästen vereinen Funktionalität und Ästhetik mit einer beträchtlichen Raumersparnis in jeder Art von Bad.

Die Spültasten integrieren sich hervorragend in jeden Stil und in jedes Design, und die dualen Klosettspülsysteme reduzieren den Wasserverbrauch.

Системы инсталляции **RAK-Ecofix** компании RAK Ceramics — это идеальное решение для всех типов водных санитарных систем. Незаметные встраиваемые системы инсталляции сочетают функциональность и эстетичность, не занимая много места в ванной комнате. Новые элегантные кнопки смыва совместимы с любыми системами двойного смыва (например, 3/6 л), позволяя снизить расход воды. Все системы совместимы с любыми подвесными и пристенными унитазами и биде RAK Ceramics, превосходно вписываются в любое пространство.

Передовые технологии, инновации и пониженный расход воды делают RAK-Ecofix идеальным выбором для вашей ванной комнаты, какой бы она ни была.

RAK-Ecofix not only offers limitless installation possibilities, but a flat designed range of push plates in 3 elegant finishes and 2 different designs. The push plate is the only visible part of the concealed cistern and is built for the water saving dual system flush in volumes 6-3 liters or 4.5-3 liters. Another possibility to move functionality and style into your bathroom.

Rak-Ecofix non offre solamente infinite possibilità di installazione, ma una gamma di placche di comando in 3 eleganti finiture e 2 differenti design. La placca di comando è l'unica parte visibile del sistema di risciacquo da incasso ed è progettata per attivare il risciacquo a risparmio idrico Dual System da 6/3 litri, o 4.5/3 litri. Stile e funzionalità convivono perfettamente per dare il meglio al tuo bagno.

Au-delà d'une infinité de possibilités d'installation, RAK-Ecofix offre également un grand choix de plaques-poussoirs en 3 finitures élégantes et 2 différents designs. La plaque-poussoir est la seule partie visible du réservoir de chasse d'eau encastré, et est construite pour les systèmes de chasse d'eau de cabinet duals, à l'économie d'eau, pour 6-3 litres ou 4.5-3 litres. Une autre possibilité de conférer à votre salle de bains de la fonctionnalité et du style.

RAK-Ecofix bietet nicht nur unendlich viele Installationsmöglichkeiten, sondern auch eine große Auswahl an Spültasten in 3 eleganten Ausarbeitungen und 2 verschiedenen Designs. Die Spültaste ist der einzige sichtbare Teil des eingebauten Spülkastens, und ist für wassersparende duale Klosettspülsysteme für 6-3 Liter oder 4.5-3 Liter konstruiert. Eine weitere Möglichkeit, Funktionalität und Stil in Ihr Badezimmer zu bringen. 2 Designs

RAK-Ecofix предлагает не только безграничные возможности установки, но и дизайнерский ассортимент клавиш смыва в 3 элегантных отделках и 2 вариантах дизайна. Клавиши смыва - это единственная видимая часть скрытого бачка, встроенная для реализации системы экономии воды с использованием двойного смыва объемом 6-3 литра или 4,5-3 литра. Еще одна возможность привнести функциональность и стиль в вашу ванную комнату.

## RAK-ECOFIX / FURNITURE CISTERNS & UNIVERSAL FRAME

RAK-Ecofix low height concealed cisterns are designed to fit even the smallest furniture units on the market. The easy to fit cistern can be accessed for maintenance simply through the removable front panel of the furniture unit, or from the top via a removable shelf.

I sistemi di risciacquo ad altezza ridotta Rak-Ecofix sono progettati per essere installati persino nei più piccoli mobili da bagno disponibili sul mercato. La cassetta può essere facilmente ispezionata in caso di manutenzione attraverso il pannello frontale rimovibile o il ripiano superiore.

Les réservoirs de chasse d'eau bas de Rak-Ecofix sont conçus pour équiper même les plus petits meubles en vente. Le réservoir de chasse d'eau facile à encasturer, est facilement accessible aux travaux de maintenance, par le panneau de front démontable du meuble, ou d'en haut, par une case démontable.

Niedrige Einbauspülkästen von RAK-Ecofix sind dafür entworfen, selbst die kleinsten Möbelstücke auf dem Markt auszustatten. Der einfach einzubauende Spülkasten ist für Wartungsarbeiten einfach zugänglich, durch das abnehmbare Frontpaneel des Möbelstücks oder von oben, durch ein abnehmbares Fach.

Низкие системы инсталляции RAK-Ecofix подойдут для установки даже на самую малогабаритную мебель на рынке. Доступ к легко устанавливаемому бачку для технического обслуживания можно получить через съемную переднюю панель мебельного блока или сверху через съемную полку.

## RAK-ECOFIX / URINAL FLUSH SENSORS

RAK-Ecofix range includes urinal electronic sensor system. The sensor automatically flushes the individual urinal after use, ensuring the highest level of hygiene from the minimum volume of water.

La gamma Rak-Ecofix comprende i sensori di risciacquo elettronici per orinatoi. I sensori consentono il risciacquo automatico dell'orinatoio dopo l'uso, garantendo il massimo livello di igiene ed il minimo consumo d'acqua.

La gamme de RAK-Ecofix comprend également un système de capteurs électronique pour les pissoirs. Le capteur rince le pissoir automatiquement, après l'usage, et garantit ainsi en même temps une hygiène maximale et une consommation d'eau minimale.

Die Palette von RAK-Ecofix umfasst ebenfalls ein elektronisches Sensorsystem für Pissoirs. Der Sensor spült das Pissoir automatisch nach dem Gebrauch, und gewährleistet somit ein Maximum an Hygiene bei minimalem Wasserverbrauch.

Серия RAK-Ecofix включает в себя электронные датчики писсуаров. Датчик позволяет автоматически осуществлять смыв в писсуаре после каждого использования, обеспечивая максимальный уровень гигиены при минимальном расходе воды.

## SOLID WALL INSTALLATION

The concealed cistern can be easily fastened in front of or inside a solid wall and then brick lined.

La cassetta nascosta può essere facilmente incassata davanti o dentro a una parete di mattoni e successivamente foderata di mattoni / Le réservoir de chasse d'eau encastré peut être facilement fixé devant ou dans un mur solide, et ensuite crépi / Der eingebaute Spülkasten kann ganz einfach vor oder in einer soliden Wand fixiert, und dann verohrt. Система инсталляции может быть легко закреплена на стене или внутри сплошной стены, а затем оштукатурена.

RAK-Ecofix installation elements are suitable for solid constructions and for all drywall construction situations. / Gli elementi RAK-Ecofix sono adatti alle situazioni costruttive in mattoni e a tutte le situazioni costruttive in cartongesso. / Les éléments encastrés de RAK-Ecofix sont appropriés aux constructions solides et à toutes les constructions en plâtré. / Einbauelemente von RAK-Ecofix eignen sich für solide Konstruktionen und für alle Trockenbaukonstruktionen. / Монтажные элементы RAK-Ecofix подходят для капитальных конструкций и любых конструкций из гипсокартона.

## DRYWALL INSTALLATION

With a drywall system it is possible to create complete room-height prewalls or partitions.

È possibile creare partizioni e pareti a tutta altezza con il sistema di scarico per muri in cartongesso / Avec un système de placoplâtre, il est possible de construire des doublages complets, à hauteur d'étage ou des cloisons / Mit einem Trockenwandsystem ist es möglich, komplette raumhohe Vorsatzschalen oder Trennwände zu schaffen. С помощью гипсокартона можно создавать стены на всю высоту помещения или перегородки.

### 12 cm wall-thickness

Pareti da 12 cm / 12 cm d'épaisseur de mur / 12 cm Wanddicke / Толщина стены: 12 см

#### In the wall or in front of it, with flushing actuation from the front

All'interno del muro o in appoggio, con placca sul fronte. / Dans ou devant le mur, avec commande de chasse d'eau de devant. / In der Wand oder davor, mit Spülbetätigung von vorne. / В стене или на ней, с активатором смыва спереди.

## RAK-NEOFIX

**RAK-Neofix** Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption. All systems perfectly integrate with all of RAK Ceramics Wall Hung & BTW WCS and bidets and fit perfectly into any home environment or contract specification. Technology, innovation and water saving features make RAK-Neofix the perfect choice for your bathroom, whatever you have imagined.

I sistemi di risciacquo **RAK-Neofix** by RAK Ceramics sono la soluzione ideale per tutte le tipologie di impianto idrosanitario. Le invisibili cassette di risciacquo da incasso uniscono funzionalità ed estetica, con un notevole risparmio di spazio in ogni tipo di bagno. Le nuove ed eleganti placche di comando si integrano perfettamente con qualunque stile e design ed i sistemi dual flush riducono il consumo di acqua. Tutti i sistemi sono perfettamente integrati con la ampia gamma di sanitari sospesi o a filo muro RAK Ceramics e si adattano alla perfezione ad ogni ambiente domestico o alle esigenze dei grandi progetti. Tecnologia, innovazione e attenzione al risparmio idrico fanno di RAK-Neofix la scelta ideale per il tuo bagno, in qualunque modo tu lo abbia immaginato.

Les systèmes de chasse d'eau **RAK-Neofix** de RAK Ceramics offrent la solution idéale pour tout type d'objets hydro-sanitaires. Les invisibles réservoirs de chasse d'eau encastrés unissent la fonctionnalité et l'esthétique avec une économie d'espace considérable dans tout type de salle de bains. Les plaques-poussoirs s'intègrent à merveille dans tout style et tout design, et les systèmes de chasse d'eau de cabinet duals réduisent la consommation d'eau. Tous les systèmes se relient parfaitement avec le grand choix d'objets sanitaires posés ou suspendus, et s'adaptent à merveille à toute situation constructive ainsi qu'aux exigences de grands projets. La technologie, l'innovation et l'attention pour l'économie d'eau font de RAK-Neofix le choix idéal pour votre salle de bains, telle que vous vous l'imaginez.

Die Spülsysteme **RAK-Neofix** von RAK Ceramics sind die ideale Lösung für alle Arten hydrosanitärer Anlagen. Die unsichtbaren eingebauten Spülkästen vereinen Funktionalität und Ästhetik mit einer beträchtlichen Raumsparnis in jeder Art von Bad. Die Spültasten integrieren sich hervorragend in jeden Stil und in jedes Design, und die dualen Klosettspülsysteme reduzieren den Wasserverbrauch. Alle Systeme verbinden sich perfekt mit der breiten Auswahl an stehenden oder hängenden sanitären Gegenständen, und passen sich hervorragend jeder häuslichen Umgebung sowie den Anforderungen großer Projekte an. Technologie, Innovation und das Interesse an einer Wasserersparnis machen RAK-Neofix zur idealen Wahl für Ihr Bad, wie Sie es sich auch immer vorstellen.

Системы инсталляции **RAK-Neofix** компании RAK Ceramics — это идеальное решение для всех типов водных санитарных систем. Незаметные встраиваемые системы инсталляции сочетают функциональность и эстетичность, не занимая много места в ванной комнате. Новые элегантные кнопки смыва совместимы с любыми системами двойного смыва (например, 3/6 л), позволяя снизить расход воды. Все системы совместимы с любыми подвесными и пристенными унитазами и биде RAK Ceramics, превосходно вписываются в любое пространство. Передовые технологии, инновации и пониженный расход воды делают RAK-Neofix идеальным выбором для вашей ванной комнаты, какой бы она ни была.

RAK-Neofix not only offers limitless installation possibilities, but a flat designed range of push plates in 3 elegant finishes and 2 different designs. The push plate is the only visible part of the concealed cistern and is built for the water saving dual system flush in volumes 6-3 liters or 4.5-3 liters. Another possibility to move functionality and style into your bathroom.

RAK-Neofix non offre solamente infinite possibilità di installazione, ma una gamma di placche di comando in 3 eleganti finiture e 2 differenti design. La placca di comando è l'unica parte visibile del sistema di risciacquo da incasso ed è progettata per attivare il risciacquo a risparmio idrico Dual System da 6/3 litri, o 4.5/3 litri. Stile e funzionalità convivono perfettamente per dare il meglio al tuo bagno.

Au-delà d'une infinité de possibilités d'installation, RAK-Neofix offre également un grand choix de plaques-poussoirs en 3 finitures élégantes et 2 différents designs. La plaque-poussoir est la seule partie visible du réservoir de chasse d'eau encastré, et est construite pour les systèmes de chasse d'eau de cabinet duals, à l'économie d'eau, pour 6-3 litres ou 4.5-3 litres. Une autre possibilité de conférer à votre salle de bains de la fonctionnalité et du style.

RAK-Neofix bietet nicht nur unendlich viele Installationsmöglichkeiten, sondern auch eine große Auswahl an Spültasten in 3 eleganten Ausarbeitungen und 2 verschiedenen Designs. Die Spültaste ist der einzige sichtbare Teil des eingebauten Spülkastens, und ist für wassersparende duple Klosettspülsysteme für 6-3 Liter oder 4.5-3 Liter konstruiert. Eine weitere Möglichkeit, Funktionalität und Stil in Ihr Badezimmer zu bringen.

RAK-Neofix предлагает не только безграничные возможности установки, но и дизайнерский ассортимент клавишей смыва в 3 элегантных отделках и 2 вариантах дизайна. Клавиши смыва - это единственная видимая часть скрытого бачка, встроенная для реализации системы экономии воды с использованием двойного смыва объемом 6-3 литра или 4,5-3 литра. Еще одна возможность привнести функциональность и стиль в вашу ванную комнату.

RAK Ceramics is committed to developing eco-friendly sanitary ware products with a particular focus on water saving, and has launched the Eco-Fresh, Waterless Urinal Sanitation System. Eco-Fresh is an advanced urinal sanitation system which requires absolutely no water to flush.

RAK Ceramics' Sanitary ware includes an elegant range in wash basins (mounted and pedestal), bathroom suites – wash basins, water closets and bidets (close coupled, back-to-wall and wall hung), water closets adapted for customers with special needs, bath tubs, shower trays, kitchen sinks.

#### Vitreous China

Vitreous China sanitary ware products are manufactured using high quality Ball Clay, Kaolin Clay, Silica Sand, Feldspar etc.

The raw materials are tested as per the Standards procedure in laboratory before being taken for production. The non-plastic raw materials namely Silica Sand and Feldspar are crushed into manageable state to undergo a wet milling process in the ball mill. The mix is then transferred to a high speed blunger, where the clay will be added as per the recipe and the resulting 'Body slip' will undergo a 2 hours blunging process to achieve homogeneity of the mix. It is then passed through a vibrating sieve attached to a fine mesh with powerful magnets to remove impurities before being finally stored in the storage Arc. From the storage Arc the body slip is transferred to various casting departments after testing the rheological properties.

The Sanitaryware products are produced using three different types of casting processes namely high or medium pressure casting, battery casting and traditional casting. Majority of the products are produced by high or medium pressure casting using resin moulds, which results in very high quality products due to the atomization process involved.

The casted products are then arranged on trolleys to undergo a natural drying process of 24 to 48 hours depending on the size of the products. The products are then given a smooth finish before being sent for drying in Tunnel / Chamber dryers for another 10 – 12 hours in order to achieve moisture content below one percent. The dried pieces are then transferred to inspection booth before undergoing the Glazing process. During inspection, each and every piece will be checked for technical flaws before being transferred to Glaze Spraying Booths, where they are coated with an impervious, non-crazing vitreous glaze.

The glazed pieces are then arranged on kiln cars before the pieces are transferred to the shuttle or tunnel kilns for firing at a very high temperature of 1220 ° C to obtain Vitreous China Sanitaryware with Water Absorption less than 0.5% of the dry weight.

The resulting fired product then undergoes different Quality checking / testing processes such as Visual Quality check, Leak test, Dimensional check, Crazing test, Burning test, Acid resistance test, Staining test, Water Absorption test etc. as per the procedure. In case of water closet the cisterns will be fitted in house with the approved flush mechanism before being shipped to our valued customers.

Vitreous China is therefore highly Hygienic, Fireproof, Stain-proof, Rustles, non-fading and is also resistant to Acids & Alkalies.

#### Fire Clay

Fireclay Sanitaryware products are manufactured using Ball clays, Kaolin Clay, Quartz and Pre-fired Clays. The clays are processed in the blunger and to this mix, Quartz and Pre-fired clay are added to undergo blunging process for an hour to achieve homogeneity. The final 'Fireclay Slip' is then passed through a mesh and powerful magnet to remove impurities before being stored in the storage Arc. The other manufacturing process remains same as of Vitreous China products.

In general, fireclay slip will be used to produce heavy-duty large size WASH BASINS, kitchen sinks, service sinks, lab sinks etc., where the shape retention is critical.

RAK Ceramics è impegnata nello sviluppo di prodotti sanitari eco-compatibili, con particolare attenzione al risparmio idrico, e recentemente ha lanciato Eco-Fresh, un sistema sanitario urinario avanzato che non richiede alcun flusso di acqua di scarico.

La collezione di prodotti sanitari di RAK Ceramics include una elegante gamma di lavabi (a mensola e a colonna), completi per il bagno – lavabi, tazze e bidet (monoblocco, a muro e sospesi), tazze adattate per clienti con bisogni speciali, vasche da bagno, piatti doccia, lavelli da cucina.

#### Vitreous China

I prodotti sanitari in gres chiaro sono realizzati utilizzando materie prime di alta qualità, come argilla bianca, argilla caolinica, sabbia silicea e feldspato.

Le materie prime vengono qualitativamente testate nel nostro laboratorio interno prima di essere utilizzate per la produzione. Le materie prime non plastiche (sabbia silicea e feldspato) vengono frantumate prima di essere sottoposte al processo di macinazione ad umido nel mulino a sfere. La miscela viene trasferita in un'impastatrice ad alta velocità, in cui l'argilla viene addizionata e la pasta 'slip' risultante è impastata per due ore per ottenere una miscela omogenea. La miscela è passata attraverso un vaglio vibrante collegato ad un setaccio fine con potenti magneti per rimuovere le impurità, prima di essere finalmente spostata nell'arco di stoccaggio. Dopo aver testato le proprietà reologiche, la pasta slip è trasferita agli specifici reparti di colata.

I prodotti sanitari sono realizzati utilizzando tre diversi tipi di processi di colata: colata media o ad alta pressione, colata a batteria, colata tradizionale. La maggioranza dei prodotti sanitari della RAK Ceramics sono realizzati utilizzando la colata media o ad alta pressione in stampi di resina, che produce prodotti di alta qualità grazie al processo di atomizzazione attivato.

I prodotti colati sono disposti su carrelli per essere sottoposti ad un processo di essiccazione naturale dalle 24 alle 48 ore in base alle dimensioni del prodotto. Ai prodotti viene quindi conferita una finitura liscia prima di essere inviati per un'ulteriore essiccazione in essiccatoi a tunnel/camera per altre 10-12 ore al fine di ottenere un contenuto di umidità inferiore all'1%. I pezzi asciutti vengono ispezionati prima di essere sottoposti a vetrinatura. Nel corso dell'ispezione, ciascun pezzo viene controllato al fine di individuare eventuali difetti prima di essere trasferito nella cabina di spruzzatura dello smalto, dove viene rivestito con uno smalto vitreo impermeabile e anti-fessurativo.

I pezzi smaltati vengono collocati su carrelli da forno prima di essere trasferiti nei forni a shuttle o a tunnel per la cottura alla temperatura molto elevata di 1220°C. La combinazione dei materiali usati, del processo utilizzato e della cottura a una temperatura così elevata crea prodotti sanitari in gres chiaro con un livello di assorbimento dell'acqua inferiore allo 0,5% del peso asciutto.

Il prodotto finito quindi viene sottoposto ad una serie di diverse procedure di controllo/verifica della qualità, inclusi un controllo visivo, un controllo dimensionale, prove di tenuta, di fessurazione, di combustione, di resistenza agli acidi, di macchiabilità e di assorbimento idrico. Per quanto riguarda i vasi, nella fase finale la tazza viene fornita all'interno dello stabilimento del meccanismo di scarico approvato prima che il prodotto finito venga spedito.

Il gres chiaro è estremamente igienico, a prova di fuoco, a prova di macchia, a prova di ruggine, non sbiadisce ed è anche resistente agli acidi e agli alcali.

#### Fire Clay

I prodotti sanitari in materiale refrattario sono realizzati utilizzando argilla bianca, argilla caolinica, quarzo e argilla precotta. Le materie prime vengono aggiunte nell'impastatrice e sottoposte ad un processo di impasto per un'ora per ottenere una miscela omogenea.

Lo 'slip' refrattario finale viene quindi passato attraverso un vaglio vibrante collegato ad un setaccio fine con potenti magneti per rimuovere le impurità, prima di essere finalmente spostato nell'arco di stoccaggio. Il procedimento produttivo successivo è lo stesso di quello adottato per i prodotti in gres chiaro.

In generale, lo slip refrattario viene utilizzato per produrre lavabi di grandi dimensioni e per prolungato utilizzo, come per i lavelli da cucina, lavelli di servizio o lavelli da laboratorio in cui è fondamentale il mantenimento della forma.

RAK Ceramics s'engage à mettre en place des produits sanitaires favorables à l'environnement mettant un accent particulier sur l'économie d'eau. Récemment a été mis sur le marché le système Eco-Fresh, un système d'assainissement d'urinoir sophistiqué qui ne nécessite absolument pas d'eau de chasse. La collection de sanitaires de RAK Ceramics inclut une gamme de lavabos (montés ou sur socle), des salles de bain complètes : lave-mains, W.C. et bidets (monobloc, dos au mur et suspendu), W.C. adaptés pour les clients avec des besoins spéciaux, baignoires, receveurs de douche, évier de cuisine.

#### Porcelaine Vitriifiée

Les produits sanitaires à base de porcelaine vitriifiée sont fabriqués à l'aide de matières premières de haute qualité comme l'argile figuline, le kaolinton, le sable silicieux et le feldspath.

La qualité des matières premières est testée dans nos laboratoires sur site avant que celles-là ne soient envoyées en production. Les matières premières non-plastiques (sable silicieux et feldspath) sont écrasées avant de subir un processus de broyage humide dans le broyeur à billes. Le mélange est transféré vers un délayeur à haute vitesse où l'argile est ajoutée, et la « barbotine » obtenue est délayée pendant deux heures pour assurer un mélange homogène. Le mélange traverse un tamis vibrant fixé à une grille à mailles fines avec de puissants aimants, pour éliminer les impuretés avant d'être finalement acheminé vers l'arc de stockage. Après le test des propriétés rhéologiques, la barbotine est transférée aux divisions de coulage requises.

Les produits sanitaires sont fabriqués grâce à trois processus de coulage différents : coulage à pression moyenne ou élevée, coulage par batterie ou coulage traditionnel. La plupart des produits sanitaires de RAK Ceramics sont le résultat d'un coulage à pression moyenne ou élevée dans des moules en résine, étant des produits de très haute qualité en raison du processus d'atomisation impliqué.

Les produits coulés sont disposés sur des chariots dans le cadre du processus de séchage s'étendant sur 24 à 48 heures selon la taille du produit. La finition confère aux produits un aspect lisse avant qu'ils ne soient envoyés pour séchage supplémentaire dans des séchoirs tunnel/à chambre pendant 10 à 12 heures, pour réduire la teneur en humidité à moins de 1%. Les pièces séchées sont inspectées avant le processus d'émaillage. Au cours de l'inspection, chaque pièce est contrôlée sur d'éventuels défauts techniques avant qu'elle ne soit transférée vers la cabine d'atomisation où elle est revêtue d'email vitreux imperméable et anti-fissures.

Les pièces émaillées sont placées sur des wagons de four avant d'être transférées aux fours à tunnel ou à sole mobile pour la cuisson à une température de 1220°C. L'association de matériaux utilisés, les processus et la cuisson à une telle température offrent des sanitaires à base de porcelaine vitriifiée avec un taux d'absorption d'eau inférieur à 0,5% du poids à sec. Le produit final passe ensuite par une série de procédures de vérification/test de qualité, y compris un contrôle visuel de la qualité, un contrôle dimensionnel et des tests d'étanchéité, de fissuration, de brûlage, de résistance aux acides, de coloration et d'absorption d'eau. À l'étape finale pour ce qui est des W.C., les citernes sont munies en maison par un mécanisme de chasse approuvé avant que le produit fini ne soit expédié. La porcelaine vitriifiée est très hygiénique, ignifuge, résistante aux taches, inoxydable, inaltérable et également résistante aux acides et alcalins.

#### Fire Clay

Les sanitaires à base d'argile réfractaire sont fabriqués à l'aide d'argiles figulines, de kaolinton, de quartz et d'argiles pré-cuites. Les matières premières sont ajoutées dans le délayeur et subissent un processus de délayage pendant une heure pour obtenir un mélange homogène. La « barbotine à base d'argile réfractaire » traverse ensuite un tamis vibrant fixé à une grille à mailles fines avec de puissants aimants, pour éliminer les impuretés avant d'être finalement acheminée vers l'arc de stockage. La suite du processus de fabrication reste identique à celui des produits en porcelaine vitriifiée. En général, la barbotine à base d'argile réfractaire est utilisée pour la production de lavabos robustes de grande taille, à l'instar d'évier de cuisine, de vidoirs ou d'évier de laboratoire où le maintien des formes est crucial.

RAK Ceramics fühlt sich verpflichtet, umweltfreundliche Sanitärprodukte mit besonderem Fokus auf Wassereinsparung zu entwickeln und führte vor kurzem Eco-Fresh ein, ein erweitertes Urinal-System, welches komplett ohne Wasser zum Spülen auskommt.

Zur Kollektion an Sanitärprodukten von RAK Ceramics gehören eine Produktreihe an eleganten Waschbecken (montiert und auf Sockel), Badezimmereinrichtungen, einschließlich Waschbecken, Toiletten und Bidets (eng aneinander stehend, Rückwandmontage und hängend an der Wand), Toiletten, die für Kunden mit speziellen Bedürfnissen entwickelt wurden, Badewannen, Duschwannen, Küchenspülen.

#### Porzellanemail

Sanitärprodukte aus Porzellanemail werden aus hochwertigen Rohstoffen, wie Kugelton, Tonerde, Quarzsand und Feldspat hergestellt.

Die Rohstoffe werden, bevor Sie für die Produktion verwendet werden, alle in unserem Vor-Ort-Labor auf ihre Qualität getestet. Die kunststofffreien Rohstoffe (Quarzsand und Feldspat) werden vor dem Nassmahlverfahren in der Kugelmühle zerkleinert. Das Gemisch wird dann in einen Hochgeschwindigkeits-Tonmischer übergeben, in dem Ton zugesetzt wird. Der daraus resultierende "Schlicker" wird dann für zwei Stunden gemischt, um eine homogene Mischung zu erzeugen. Vor der Lagerung wird die Mischung durch ein feinmaschiges Rüttelsieb mit starken Magneten geleitet, um Verunreinigungen zu entfernen. Nach der Prüfung der rheologischen Eigenschaften wird der "Schlicker" in die Gießerei übertragen.

Die Sanitärprodukte werden mit Verwendung von drei unterschiedlichen Gießverfahren hergestellt: Mittel- oder Hochdruckguss, Batteriegieß oder traditioneller Guss. Die meisten Sanitärprodukte von RAK Ceramics werden mit Mittel- bis Hochdruckguss in Harzformen hergestellt, was wegen des Zerstoßprozesses zu sehr hochwertigen Produkten führt.

Die gegossenen Produkte werden auf Wagen angeordnet und, abhängig von der Größe, einem natürlichen Trocknungsvorgang von 24 bis 48 Stunden unterzogen. Bevor die Produkte dann für weitere 10 bis 12 Stunden zum weiteren Trocknen in Tunnel-/Kammertrocknern, um einen Feuchtigkeitsgehalt von weniger als 1% zu erreichen, wird die Oberfläche geglättet. Die getrockneten Produkte werden dann vor dem Glasieren kontrolliert.

Während der Kontrolle wird jedes Stück auf technische Mängel überprüft. Danach kommt es in die Glasur-Spritzkabine, in der es mit einer dichten, gegen Haarrisse resistenten glasigen Glasur überzogen wird. Die glasierten Stücke werden dann auf einem Ofenwagen gesetzt, bevor diese in einen Herdwagenofen oder einen Tunnelofen bei 1220°C gebrannt werden. Die Kombination aus den verwendeten Materialien und dem Brennen bei so hohen Temperaturen erlauben die Erzeugung von Sanitärprodukten aus Porzellanemail mit einer Wasseraufnahme von weniger als 0,5% des Trockengewichtes.

Das Endprodukt unterläuft dann eine Reihe an verschiedenen Qualitätsprüfungen/Testverfahren, einschließlich einer visuellen Qualitätsprüfung, einer Maßkontrolle, und Tests für Leckage, Haarrissbildung, Brennen, Säurebeständigkeit, Färbung und Wasseraufnahme. Beim letzten Schritt für Toiletten wird die Zisterne mit dem genehmigten Spülmechanismus dann im Haus angebracht, bevor das Endprodukt schließlich ausgeliefert wird. Porzellanemail ist sehr hygienisch, feuerfest, schmutzabweisend, rostfrei, lichtecht und beständig gegen Säuren und Laugen.

#### Fire Clay

Sanitärprodukte aus Schamott werden aus Kugelton, Tonerde Quarz und vorgebranntem Ton hergestellt. Die Rohstoffe werden dem Mischer zugeführt und eine Stunde vermischt, um eine homogene Mischung zu erhalten. Vor der Lagerung wird die Schamottmischung durch ein feinmaschiges Rüttelsieb mit starken Magneten geleitet, um Verunreinigungen zu entfernen. Der übrige Herstellungsprozess ist der gleiche wie für Produkte aus Porzellanemail.

Normalerweise werden Schamottmischungen zur Herstellung großer Industriewaschbecken wie Küchenspülen, Service-Waschbecken oder Laborwaschbecken verwendet, bei denen Formstabilität entscheidend ist.

Наша цель – разработка экологически чистой сантехники с особым акцентом на экономию воды. Поэтому мы разработали систему Eco-Fresh и систему безводного смыва писсуаров Waterless. Eco-Fresh - это продвинутая технология для писсуаров, которая позволяет полностью отказаться от использования воды.

Сантехника RAK Ceramics включает в себя ассортимент стильных и элегантных раковин (подвесных и с пьедесталом), керамической сантехники для ванных комнат - раковин, унитазов и биде (компактов, приставных и настенных), унитазов, приспособленных для клиентов с особыми потребностями, ванн, душевых поддонов, кухонных раковин.

### Фаянс

Керамическая сантехника из фаянса производится с использованием высококачественной комовой глины, каолиновой глины, кварцевого песка, полевого шпата и т. д.

Перед принятием в производство сырье проверяется в лаборатории в соответствии с процедурами, предусмотренными стандартами. Непластичные исходные материалы, а именно: кварцевый песок и полевой шпат, измельчаются до состояния порошка в процессе мокрого размола в шаровой мельнице. Затем смесь переносится в высокоскоростную глиномешалку, где глина добавляется в соответствии с рецептом, а получающаяся в результате масса перемешивается в течение двух часов, чтобы получить однородную смесь. Затем ее пропускают через вибросито с мелкими ячейками и мощными магнитами для удаления примесей, прежде чем отправить на хранение. После хранения масса передаётся в различные отделы для литья после проверки реологических свойств.

Сантехнические изделия производятся с использованием трех различных типов процессов литья, а именно: литье под высоким или средним давлением и традиционное литье. Большая часть изделий производится методом литья под высоким или средним давлением с использованием пресс-форм из смолы, что приводит к получению продуктов очень высокого качества благодаря использованию процесса распыления.

Затем отлитые изделия укладывают на тележки для естественной сушки на время от 24 до 48 часов, в зависимости от размера изделия. Затем поверхность изделий шлифуют перед отправкой на сушку в сушилки туннельного или камерного типа еще на 10-12 часов, чтобы достичь содержания влаги ниже одного процента. Затем высушенные части переносят на инспекционный стенд перед глазурованием. Во время осмотра каждая деталь будет проверена на дефекты, прежде чем она будет перенесена в камеры для напыления глазури, где их покрывают водоотталкивающей нерастрескивающейся стекловидной глазурью.

Покрытые глазурью детали укладывают на печные вагонетки, после чего их переносят в печи с выдвижным подом или туннельные печи для обжига при очень высокой температуре (1220 °C), чтобы получить сантехнику из фаянса, объём остаточной влаги в которой составляет менее 0,5% от сухого веса.

Полученные после обжига изделия затем проходят проверку качества и испытания, например, визуальный контроль качества, проверка на утечку, контроль размеров, испытания на растрескивание, испытания на огнестойкость, испытания на кислотостойкость, проба окрашиванием, испытания на водопоглощение и т. д. согласно процедурам. Перед отправкой клиентам в бачки для унитазов устанавливаются проверенные и надёжные механизмы смыва.

Сантехника из фаянса – это высокий уровень гигиены, огнестойкость, защита от пятен и ржавчины, от выцветания и воздействия кислот и щелочей.

### Фарфор

Сантехнические изделия из фарфора производится с использованием комовых глин, каолиновой глины, кварца и предварительно обожженных глин. Глины перемешивают в глиномешалке, затем к этой смеси добавляют кварц и предварительно обожженную глину, после чего перемешивают в течение часа, чтобы достичь однородности. Полученная огнеупорная масса затем пропускается через сетку и мощный магнит для удаления загрязнений перед отправкой на хранение. Дальнейший производственный процесс аналогичен процессу для изделий из фаянса.

Как правило, огнеупорная масса используется для производства усиленных крупногабаритных раковин, кухонных раковин, бытовых раковин, лабораторных раковин и т. д., для которых сохранение формы имеет критическое значение.
